Size : 200 x 400 x 80 mm

Size : 350 x 305 x 76 mm

FIBERGLASS MARKER POST

Our fiberglass markers are an in-expensive & long lasting choice for displaying messages along any traveled patch. These markers are commonly used to posting important information / warnings along trails, mark divisional boundaries & to a number of divisional camp-sites. We have a wide range of profiles, colours & lengths available.

Boundary Marker Post- Versatile & Boundary Posts call attention to nearby GPS marks, survey markers, or survey monuments at a very low cost and help prevent those more costly maintenance accidents that lead to marker damage or replacement.

- Salient Features:
- High (Thickness & Weight) Material
 - High Visibility at Night
 - Weather Resistance
 - U.V. Resistance
 - Maintenance Free
 - Easy to install

Size : 480 x 90 mm Thickness 1.5
